

## The Instrument

### WERSI Newsletter Christmas 2008

Often copied but never achieving the genuine WERSI original sound!

#### Contents:

- A. Merry Christmas
- B. The New Rhythm Designer – Be Creative
- C. Make a New Organ
- D. A New partner in the Aachen – Düren – Cologne Area
- E. Successful Exhibitions in Nürnberg and Munich
- F. Employment available at WERSI Munich
- G. Where can you find new free Styles on the Internet?
- H. The Okey-CD - Shop -> the largest CD offers in Continental Europe
- I. New Software 7.1 R36

#### Merry Christmas

The entire WERSI-Team wishes you a Merry Christmas. We thank all our customers who bought a new instrument from us during the past year or who extended their original instrument. We should be pleased to see you in the new year at one of our many events. So that you have the correct Styles while you are playing Christmas carols, we have gathered 14 Christmas Styles\* for you. You can download these directly from this link : <http://www.wersi.net/weihnachtsstyles.zip>. We wish you much enjoyment while using these Styles and say: **“See you again in the year 2009”**.

\*Requires the OpenArt Arranger plus the new Drumsets 2007.

#### The New Rhythm Designer – Be Creative

With the new Rhythm Designer you can give your creativity free-rein. You can accompany yourself rhythmically but without the automatic rhythm, eg using just an acoustic guitar. Or find a suitable piano boogie accompaniment. Or use the Rhythm Designer to provide piano or harp arpeggios. The Rhythm Designer allows you to do all these things. From over 600 loops you select which you wish to use. For quick access, the list is divided into 14 categories, like Arpeggios, Beat, Rock, Swing etc. Up to four loops can be played simultaneously. Naturally you can use the Rhythm Designer with an existing Style and the two will play together synchronously.

A further exciting function is the copying of tracks from existing Styles. In this way, Styles can become loops or loops can be copied into existing Styles. The price is 190 Euros. It will be available in Revision 36 and need only to be activated. Thus you can telephone us for the code and have the Rhythm Designer installed immediately.

---

### **Make Yourself a New Organ and save up to 25%!**

Did you build your own CD or DX organ yourself? Are you interested in having the new OpenArt Technology? Would you like to change your organ in that way? We can immediately offer you just that conversion at our Headquarters in Halsenbach. You can therefore help yourself and save money. It is possible to do this only at Halsenbach. Further information can be obtained from:

North Germany – Herr Thymo Meyer 0800 – 11 231002

South Germany – Herr Jürgen Tichy 0800 – 11 231001

*[Ed. From other countries contact Jürgen Tichy]*

### **A New partner in the Aachen – Düren – Cologne Area**

We are pleased to announce another Wersi outlet. Since 29 November, 2008, we have had a new WERSI Showroom in Düren. At the opening celebration, Claudia Hirschfeld delighted the numerous visitors and music fans with her WERSI-LOUVRE.

Herr Jürgen Schauf and the entire WERSI Team welcoming the visitors.

Address:

WERSI Showroom Düren

Monschauer Str.106, 52335 Düren

Free Phone: 0800 - 11 23 1006 (not by mobile or from outside Germany)

Tel.: 02421-2231887

E-Mail: [dueren@wersi.net](mailto:dueren@wersi.net)

Internet: <http://www.wersi-dueren.de/>

### **Successful Exhibitions in Nürnberg and Munich**

This year, after a break of many years, WERSI was able to exhibit at consumer fairs, like the Consumenta in Nuremberg and the Heim & Handwersmesse in Munich. The current range of WERSI instruments were not only available to see but were introduced on the exhibition booth by our demonstrator of many years from Munich, Herr Jürgen Tichy, who provided mini-concerts. For many it was a special experience to meet WERSI locally. It is, nevertheless, nearly 40 years since the first customers bought their WERSI kits from that building. There are no such kits available today, owing to the very small and complex parts now used, but the acquisition of a WERSI instrument still attracts great interest.

#### **Consumenta in Nürnberg**

## Heim & Handwerk in München

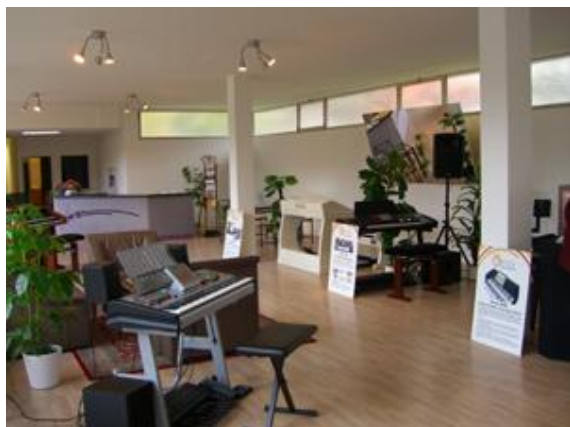

---

### Employment available at WERSI Munich

We are seeking, at short notice, a sales assistant for our Munich shop who will take the outlet forward and attend personally to local requirements. 2-3 days per week, from 14.00 to 18.00 hrs, according to customer requirements.

If interested, please send us your application by e-mail to:

[j.tichy@wersi.net](mailto:j.tichy@wersi.net) or telephone 06747 123 0 and ask for: Herr Jürgen Tichy.

Langbürgener Str. 2 (Entrance in Chiemgau Str.)  
81549 München - Ramersdorf

---

### Where can you find new free Styles on the Internet for the OpenArt-Arranger?

Users of OAS-7 with the OAA continually ask where new and free Styles are available to download from the Internet. This offer is very eclectic. On the Internet site <http://www.jososoftware.dk/yamaha/stylesites.htm> some sites are given and those you like can be downloaded in ZIP format. There is also [http://psrtutorial.com/Files/GD/GD\\_intro.html](http://psrtutorial.com/Files/GD/GD_intro.html), where you will find hundreds of Styles.

Unzip the Styles and copy them onto a floppy disk, CD or a USB Memory Stick.

Generally you can use each Style in the YAMAHA\*-Format. Should you find older YAMAHA\* Styles, these could possibly have only 2 variations or only a single Intro and Ending. This is not an error, just that the Style was programmed for an older or smaller YAMAHA\* instrument. The so-called YAMAHA\* OTS information is not processed by the OAA.

Naturally the current Styles are available to buy directly from YAMAHA\*. From the Internet site <http://downloadshop.yamaha.de/> you can download such Styles from 5.50 Euros each.

*\*YAMAHA is the registered trademark of the YAMAHA Corporation.*

The Okey-CD - Shop -> the largest CD offers in Continental Europe

On our Homepage <http://www.wersi.de/> you will soon find a direct link to the on-line CD shop of the magazine OKEY. This CD shop has the largest range of organ CDs at special offers in all of continental Europe. Visit the shop at <http://www.okey-online.com/shop/main> or use the following links to find what is offered by the WERSI artistes named.

### The new OAS Software 7.1 R36

The WERSI OpenArt-System is characterised by many innovations. There is constant software advancement. After we integrated many new sounds free of charge in R35 there are now new Karaoke functions in the new R36 version. The range of the Karaoke display within the MIDI files is completely revised. There is now an increased number of lines to provide a preview of the next lines of text.

Further, for the first time with a keyboard or organ, the Karaoke display is available with MP3 and Wave files. Various manufacturers of MIDI-Files offer this as MP3 files for Karaoke.

You can download from the Company MIDI-Land here (<http://www.midi-land.de/>). There you can also acquire the program Lyrioke Maker (cost: 50 Euros), with which you can extend existing MIDI-Files with text.

**Also new in R36:**

- In location 093-000-103 you will find a new sound called **Brass Shake**. By employing a firm Attack (Dynamic) a normal Brass sound switches to one which shakes.
- The CD-Player has a Pause function added.

**Advice**

This new software will be available to download within the next few days. We will gladly send you the software on CD or DVD. Owing to the high demand for new software versions, we can no longer provide that dispatch service free of charge. Therefore we shall from now on be charging 6 Euros for each update CDs/DVD requested. We ask for your understanding over this.

With a disc purchase of the new Rhythm Designer, the disc is naturally free for you to keep.
