The genuine WERSI-Sound only from the Original

Dear Music Friend,

Each year, in June, we welcome all WERSI fans to our grand summer celebration in Halsenbach. This time there is something special to celebrate.

WERSI will be 40 !

In March, 1969, the brothers Wilhelm Erich and Reinhard Franz created a company dedicated to the construction of electronic musical instruments. The name WERSI was derived from the birthplace of the company, WERlau, and the name of the main town for the district, SImmern.

Since then the legendary WERSI sound has gone all round the world. Artists such as Klaus Wunderlich, Curt Prina, Hady Wolff, Franz Lambert, Ady Zehnpfennig, Claudia Hirschfeld, Mark Whale, Mike Oudewaal and many others have thrilled listeners with their WERSI instruments. By the way, all the afore-mentioned artistes, except Klaus Wunderlich who unfortunately left us far too early, will be joining us at our summer celebrations this year.

During these past 40 years there have been many people who have promoted WERSI by their enthusiasm and commitment. But all this would be as nothing without you, our customers, whose loyalty to this enterprise has provided our success. This is also a celebration for you.
