### VB3 Hammond-Clone

Das neue VST Plug-In für Ihr WERSI OAS-Instrument

After successfully using for many years the B4 VST in our instruments, there is now a new VST generation. With the new VB3 the legendary Hammond B3-Sound works even more authentically and brings you still more playing pleasure. The VB3 can be used in all OAS-7 instruments. The new organ sounds are available by using the drawbars (except EX-1).

**Hammond-Clone VB3 100,- €**

The VB3-Package is contained in the new OAS-7.1 software R00.42 and is immediately ready to download. The VB3 can then be tried out several times after the installation. Naturally you can request the new OAS-7 Version also as a CD/DVD from us. Order hotline: 0800 - 11 23 1000 (use correct initial code from outside Germany).

**Don't you have an instrument for the VB3-Sounds ?  
Then we have a special sale item for you!**

This WERSI Keyboard is a secondhand instrument. The instrument is in mint condition and is technically fully up to date. OAS software 7.1, Realdrums, Drawbars for left & right Split, DVD Burner. Accessories: Swell pedal with 2 foot switches. 12 months guarantee. New VB3 free of charge!
