*Dear Franz Lambert Fans,
Very Dear WERSI OAS Customers,*

At last it's finally possible: a long-time wish of my Fans can be fulfilled! For all owners of a Wersi OAS Instrument this wish is now a reality. Available now from Wersi: The Franz-Lambert-Edition.

You can now become bewitched by my finest Sounds, Registrations (Presets), as well as specific Styles which I have selected for this Edition and prepared for you in this unique package.

My current CDs called “Wunschmelodien, die man nie vergisst” (“Favourite Melodies Never Forgotten”) and “Let's Swing” were used as the basis for this selection. Following the wishes of my many Fans, this edition also contains some interesting Sounds and Presets from my successful production “Encounters” for you to relive. By the way, a music book of the same name as that production has also been published.

I now wish you much fun and enjoyment with your own, personal Franz-Lambert-Edition.

With kind regards

Insider Tip:
