ABACUS KS-1 Enhancement to Model "DuoElegance"

Do you already possess an ABACUS duo pro? Or did you always want to extend your single-manual ABACUS with an auxiliary manual and an exclusive wood lower section? **Then we have exactly the solution for you!**

DuoElegance lower section with 76-key Lower Manual

The new DuoElegance lower part was developed in such a way that it is very easy to take apart for transporting. It can be separated and put together again very quickly and simply owing to an ingenious plug system (no bolts are involved).

The auxiliary manual is simply placed into the recess designed for it and thereby gives an additional stability to the lower section.

To avoid unsightly leads, these can be accommodated conveniently in the side panels.

All Prices in the following Panel

DuoElegance lower section in Mahogany for ABACUS KS-1 (without Auxiliary Manual!)	1.450,00 EUR
DuoElegance lower section in Silver Grey for ABACUS KS-1 (without Auxiliary Manual!)	1.750,00 EUR
